## BRUTE ATTACKS WOMAN--SONS CAPTURE SUSPECT HENEY BEGINS HIS ARGUMENT TO THE JURY

### Young Girls See Mother Injured by Cruel Assault

Screaming with terror, little 13-year-old Bertha Francis and her sister Carrie, two years younger, rushed out of their home in West Berkeley yesterday afternoon and informed their two brothers, William and Tony, that their mother had been brutally attacked by a strange man. The boys left their work and ran to the house in time to see a man jump into a buggy and drive rapidly away.

Stopping but a moment to ascertain their mother's condition, the boys set out in pursuit on foot. By numerous inquiries they were able to trace the fugitive to Oakland. Near the corner of Nineteenth street and San Pablo avenue, they saw a man whom they thought they recognized as the assailant of their mother. The boys, who are 18 and 16 years old, respectively, seized the suspect and held him until a policeman drove 11 sight. Then by a violent effort he wrenched himself free and attempted to escape by flight. He was caught by William Francis, a pedestrian, and turned over to the police. At the city

#### Wife's Charge Against Husband

On the charge of battery, for it is alleged that he gouged out his wife's eye on July 13, and on the failure to provide for his wife, whom it is alleged he has so brutally treated, Jacob Baums, a carpenter of Melrose, was arrested late this afternoon by Constable W. C. Allen, warrants having been issued by Justice of the Peace Geary.

Mrs. Baums is the mother of fourteen children, and she supports her family by sewing. She appeared in Justice Geary's

### ELEVEN MORE SURVIVORS OF WRECK REACH HERE

#### All Praise the Columbia's Officers

SAN FRANCISCO, July 25.—The steamer City of Topeka arrived at 8 o'clock this morning with eleven more survivors of the Columbia disaster. These leaves only a few in Eureka and those in the hospital. The Topeka left Eureka yesterday afternoon at 1 o'clock, docking at Broadway wharf No. 1 this morning.

A large crowd of the relatives and friends of the survivors were at the wharf and carried them away in automobiles and carriages to be fitted out with clothes and cared for.

The survivors on the Topeka could not say enough to express their appreciation of the kindness shown by the people of Eureka. When the steamer George W. Elder arrived at the dock there were doctors, nurses, medicine, food, clothing,

### THIS GIRL OF 12 IS JUST A MODEST HEROINE

PORTLAND, July 25.—Deeds of valor were many among those who passed through the trying experiences during the wreck of the steamship Columbia off Shelter Cove, and to the weaker sex are accredited acts of surprising courage.

One is that of Miss Watson, who supported Miss Emma Grieve for two hours before being rescued. The other, and by all odds the most extraordinary, is the performance of Ethel Johnson, 12 years old, who saved two lives, one that of a child of 11, and the other that of a man.

CHEERFULLY AIDS.

Buoyed by a life preserver little Ethel held to 11-year-old Effie Gordon and later cheerfully gave aid to Olaf Pearson of this city, who all but exhausted from his efforts, swam up to her. Pearson had no life preserver, but by placing his hand lightly on the child's shoulder he kept his head above water until rescue came.

Pearson says the child showed rare presence of mind and remarkable courage, and helped him in every way she could. Eventually, after much exposure, he says the little girl towed her burdens to a life raft upon which all three were taken.

Her brother, C. Johnson, seventeen-years-old, kept hold of his mother, who had been knocked senseless, and buoying her upon his shoulders, kept her afloat until the pair were saved.

TWO SAVE MANY LIVES.

To A. Larsen and S. Petersen, are credited the saving of the lives of twenty-six passengers. During the time that intervened between the collision and the sinking of the Columbia, the sailors observed several people vainly trying to clear a life boat. Though the boat was almost a length away, they ran to their assistance, and with their knives cut away the lashings, flung the boat with twenty-six people and rowed the boat clear from the whirlpool the Columbia caused when she sank. This was the boat which picked up Pearson, Ethel Johnson and Effie Gordon.

### FIRES TWO CHARGES INTO HIS OWN BODY AND DIES

STOCKTON, July 25.—Supervisor Henry B. Knight, of the Fifth district of San Joaquin county, committed suicide this morning at his ranch near Lathrop by shooting. He arose and dressed about 5 o'clock, and, without telling anyone of his intentions, stepped out of doors and shot himself in the left breast.

The shot apparently did not strike a vital spot and the desperate man deliberately threw another shell into the gun and took a second shot, falling dead without a word. The two wounds were very near together, one striking the heart.

Knight was a prosperous farmer. He leaves a wife and children. He was serving his third term as supervisor. Nervous prostration owing to overwork is given by the family as the cause for the tragedy.

### THE PEACE DELEGATES MEET MAYOR TAYLOR

SAN FRANCISCO, July 25.—Mayor Taylor took his first day of recreation since his appointment as chief executive of this city by riding around the city with the distinguished delegates to the peace conference this morning.

Seven automobiles were placed in service to transport the party, which included the several cabinet secretaries and other prominent individuals. The trip was not confined to the Embarcadero, Golden Gate Park, and the Cliff House, but the party was also taken through the western addition and mission district.

The visitors expressed themselves as much pleased with conditions here and united in the opinion that San Francisco has a great future, that the burnt district is rapidly being rebuilt and that the progress of reconstruction is remarkable, when the numerous strikes, which have been inflicted on the city since the earthquake, are taken into consideration.

### HENEY BEGINS HIS ARGUMENT TO THE JURY

#### Delmas Surprised the Prosecution

Prosecutor Henev showed his great surprise at the defense waiving the introduction of testimony. He would not accept the challenge of Mr. Delmas to let the case go to the jury without argument.

SAN FRANCISCO, July 25.—No testimony will be introduced in behalf of Louis Glass, vice-President of the Pacific States Telephone and Telegraph Company, who is being tried for the bribing of Supervisor Boxton.

His case will go to the jury on argument alone.

Mr. Steiss was the last witness called, and at 11:20 o'clock Assistant District Attorney Henev announced:

"That is the case for the people. We rest."

"The defense has no testimony to offer," replied Delmas without a moment's pause. "We submit the case."

This sudden and wholly unexpected move created such a stir in the courtroom that the bailiffs were kept busy crying for order. Henev, after a brief whispered conference with Assistant District Attorney O'Gara, said, addressing the court:

WAS SURPRISE.

"This is contrary to what we were led yesterday to expect. Yesterday Mr. Delmas announced with some ostentation that among the witnesses the defense would call was Mr. Rudolph Spreckels. This was our authority for believing that the defense would offer testimony. As none is to be offered I request your honor to order an adjournment until 2 o'clock so that we may have opportunity to prepare our address to the jury."

Replying, Delmas said: "I do not know just what covert insult was meant to be conveyed in the use of the word 'ostentation,' and considering the source from which it came I do not greatly care. But I desire to say that we shall offer no testimony for the simple reason that there is no case to meet. When I spoke yesterday of our intention to call witnesses I presumed of course that there would be a case to meet. But the prosecution having failed to establish the

### NO WITNESSES CALLED TO TESTIFY FOR LOUIS GLASS

#### Attorney Delmas Decides That Argument Is Also Unnecessary Because No Case Has Been Made Out

SAN FRANCISCO, July 25.—The first witness called by the prosecution today in the Glass trial was Robert N. Frick, a member of the firm of attorneys employed by the Home Telephone Company when it was trying to secure a franchise in San Francisco.

Mr. Henev tried to show that Mr. Halsey had been active in opposing the sale of this franchise to a rival company. Great difficulty was experienced by Mr. Henev in getting the desired evidence admitted, as Mr. Delmas' objection tactics were more successful than usual. Mr. Frick's testimony was of little value.

Albert J. Steiss, assistant general manager, was next summoned. His testimony was rather damaging.

"Who had charge of the tax matters, franchise legislation, etc., while you were there?" asked Mr. Henev.

"They were under Mr. Glass," was the answer.

"Who had direct charge?"

"I think they were in the hands of Mr. Halsey."

"Did you ever see Mr. Halsey in Mr. Glass' office?"

"Yes; frequently."

ORGANIZATION WAS LOOSE.

On cross-examination Mr. Delmas brought out the fact that many of the

### S. P. TO RUN ON FRANKLIN STREET

#### Seek Franchise to San Pablo Ave.

The Southern Pacific Company agent is circulating a petition today along Franklin street requesting the signatures of the property owners. The petition is directed to the City Council asking for a franchise for an electric road from Fourteenth and Franklin, running to Twentieth street, thence across a private right of way northward one-half block, thence westward across a private right of way, between Twentieth and Twenty-first street, to San Pablo avenue, where the road will end for the present.

The narrow gauge system will be turned into an electric road and the station will be on San Pablo avenue, between Twentieth and Twenty-first streets.

The petition has already been signed by C. H. Bronsahan, I. A. Baretta, Benjamin Smith, H. C. Capwell and the Sunset Telephone Company.

T. W. Corder and Irving C. Lewis are striving to have the company build the electric road down Franklin street to First, and thence running around over the Webster street bridge. It is thought that will ultimately be done. At present, however, the company will use its franchise on Webster street.

### POLICE TRAILING CONFIDENCE MEN

SAN FRANCISCO, July 25.—The operations of confidence men in this city have become so marked of late that Captain of Detectives Colby has detailed Detectives Taylor and Bragg for the express purpose of running these men to cover.

The detectives this morning arrested James Wilson and Dan Rosenfeld in the city prison. When searched at the city prison nothing that could be used as evidence against the prisoners was found. Wilson, however, had considerable money, and at the San Francisco office at Stockton, on his person, all his greenbacks.

# DARROW SAYS FAIR TRIAL FOR HAYWOOD IMPOSSIBLE

## Attorney for Defense Scores Mine Owners for Trampling Law and Order in Colorado Dust.

BOLIE, July 25.—Final pleading for the acquittal of William D. Haywood was continued this morning by Clarence Darrow, who will conclude this afternoon. United States Senator Borah will begin the closing argument for the State at the evening session.

Darrow confined himself more closely today to a review of the evidence, but through the theme there continued unceasingly and almost to the point of monotony the strong note of abuse of Orchard and the condemnation of the Pinkertons. Extreme harshness at first interfered somewhat with the speaker's flight of oratory, but a liberal use of language afforded some relief and by the time Darrow reached the labor troubles in Colorado he threw all restraint aside and in spite of a reminder from the court he rose to even greater heights than yesterday in his assault upon mine owners and detectives. He would speak, he said, on the subject of deportations and await the instruction to the jury later.

DECLARES JURY UNFAIR.

Darrow this morning defended the action of "Jack Simpkins" in disappearing. He argued to the jury that at the time of Steinberg's death no man accused of the murder would have been given a fair trial. He commended Simpkins for remaining in hiding during the present trial and brought bold accusations against the jury he was addressing when he said "possibly a year hence every man who hasn't been hanged can get a fair trial in Bolie." He explained the action of the Western Federation of Miners and the executive Simpkins as members of the executive board on the ground that as a "brave man and brother we should stand by him until he is tried and convicted."

"They ask us why Jack Simpkins is not here," said Darrow, "and I will tell you. The reason he is not here is that he is afraid to be here. I don't propose to go around the question and give any fantastic reasons. He is afraid, that's the reason. Hawley tells you that Simpkins' flight proves that he is guilty, then by the same token the fact that Haywood, Moyer and Pettibone did not run away is proof that they are innocent. One is just as true as the other, but neither is true. I used to think I could tell whether a man was guilty or not by the way he fled, but I got over that long ago. Some of the guiltiest men I ever knew have acted in the calmest and most innocent manner while many an innocent man has had to take refuge from the mob."

STAND BY SIMPKINS.

"Hawley blames us for re-electing Simpkins to the executive board. It might have been better for the 4000 members of the Western Federation of Miners to have turned their back on him when he was accused, but if we had done that Hawley would have told that the fact that the federation dropped Simpkins showed beyond a shadow of a doubt that the man was guilty. But that is not the same thing as the fact that the Western Federation of Miners made every member of the federation will stand by him and will not judge him until he has had his day in court. "If Simpkins had been guilty, then you men of this jury could have told him to go away till the passions of men had cooled, till he could appeal to an impartial jury which would listen patiently to his story and render a fair and just verdict upon him. Of course you would."

"You men know these defendants are safer than they were eighteen months ago. Men's passions cool, their feelings subside and they look at things more calmly and justly. You know these defendants are having a fairer trial today than they could have had twelve months ago. It is natural they should. A year hence I venture to say that every man not hanged can get a fair trial in Bolie."

ON TRIAL FOR MURDER.

Darrow here went into a lengthy discussion as to why the defense had not put Steve Adams and George A. Pettibone on the stand. He demanded to know why the State had not put K. C. Sterling, the detective of the Mine owners' association on the stand. Adams, the attorney explained, was tried for the murder of a man in Northern Idaho. Under these circumstances, Darrow said, he would rather cut off his right arm than allow Adams to take the stand, much as he desired the acquittal of Haywood.

"I am not afraid of what he would say against Haywood, but I am afraid to let Adams, my client, turn himself wrongside out under the cunning cross-examination of Senator Borah and to have his testimony used against him when the second trial for his life begins. No lawyer who would permit a client to do such a thing would be worthy of the name."

As to Pettibone, Darrow said the circumstances were such that the State had to be tried for the murder of Governor Steinberg. Pettibone is described as an easy-going, big hearted fellow who had allowed the creature Orchard to worm his way into his house. More important for Pettibone to wait and take the stand in his own behalf than to lay himself open in the trial of Haywood, much as Pettibone would have liked to testify for the prisoner now at the bar.

THINKS MOYER SAFE.

The reason the defense put Moyer on the stand, while he, too, is awaiting trial, Darrow said, is that there is no evidence of any sort for Moyer to explain. He expressed the belief that Moyer never would be tried for he did not believe a prosecution, even so foolish as the one against Haywood, would dare put a man on trial with such flimsy evidence as could be entered against him.

Darrow demanded to know why Detective McFarland and Sterling were not indicted, saying that to the latter especially had brought some of the most serious things in the case. He said he referred to the independence and exploitation, which he charged up directly to the Mine Owners' Association.

"I don't believe they intended to kill 14 men or any men, but they wanted to put up a job as they did in the working men so that they might take the law in their own hands and drive out the Western Federation of Miners and all the men, women and children in the district who tried to sympathize with them."

Darrow pointed out that Moyer was charged as to the plans for kidnapping August Paulsen's children.

COATES VS. ORCHARD.

"He says Dave Coates suggested it. Oh, yes, somebody always suggested these things to Orchard. He never did a criminal act of his own volition in his life. But if you men can find a way to believe Orchard in preference to Dave Coates I don't know where you can ever make peace with your conscience or your Maker. And if you can find a way of believing Orchard in this instance, you must know he has been lying and lying since his conversion."

Plunging vigorously into the Cripple Creek trouble, Darrow declared that Paulsen came day the mine took the prize on this case and took up the mine. He said that they will have good

crime charged against this defendant there is no necessity for contradiction in our behalf."

HENEY AND DELMAS.

On motion of Heney, Judge Lawlor ruled that the documentary evidence admitted during the trial as exhibits for the prosecution should be handed to the jury for perusal. At 11:30 o'clock adjournment was taken until 2 p. m. It is understood that at the latter hour Heney will begin for the prosecution the opening argument to the jury.

After adjournment Mr. Heney said that he will both open and close for the people. Assistant District Attorney O'Gara having pressed upon him the importance of his saying the last word to the jury. Mr. Delmas will reply to the opening argument, but whether the defense will content itself with one appearance or whether Mr. Coogan will follow Delmas has not been determined.

## SMALL ASSESSMENTS ARE REDUCED BY EQUALIZERS

The Supervisors met this morning as a Board of Equalization. There were present Supervisors Rowe, Kelley and Bridge.

The request of Howard D. Smith, that several lots in Parkside, Claremont, be assessed to several individuals who had purchased them instead of to Lizzie D. Smith, was granted. The purchasers in question were the town of Berkeley, L. E. Reynolds, J. W. Storror, R. H. Auerbach and John Muldoon, each having secured one lot. The total amount of the assessments of the several lots was \$6200.

HOUSE MOVED AWAY.

Howard D. Smith set forth, in another application, that improvements on a piece of land bounded on the north by the north line of Berkeley annex east by Claremont avenue and west by the land of Lizzie D. Smith were assessed at \$2000. He further showed that there were no improvements on the place on March 1, 1907, the house which had been there having been sold and moved away. The board ordered the assessment canceled.

A Lorasbach's application showed that a mortgage for \$6000 on lot 6 and a portion of lot 13 in the Erie tract had been left off the assessment roll. He requested that the mortgage be placed on the roll and the request was granted.

Mrs. M. Denekamp set forth that the lot on Central avenue, 130 feet west of Webster street in block 425, Alameda, ought to be assessed at \$1500 instead of \$23,000. This application was continued until tomorrow to enable the assessor to examine the improvement on the property. Mr. Dalton stated that the assessment on the realty had been reduced \$100 since last year.

CUT SIX HUNDRED.

S. Ringolsky asked for a reduction of the assessment on his property from

"We don't need a witness," answered Mr. Delmas. "As to the matter of argument?" suggested the Court. "We don't care to make any argument," replied Mr. Delmas, "we will submit the case as it is." This was a surprise to Mr. Heney. He stated that the assessment on the lot 2 o'clock to prepare his argument.

Mr. Delmas said he had supposed a case would be made out against the defendant, but as this had not been done, he would call no witnesses.

The case will go to the jury some time tomorrow as the prosecution did not accept Mr. Delmas' challenge to submit it without argument.

# PROPOSED ANNEX TO FABIOLA WILL BE MOST MODERN OF HOSPITAL STRUCTURES

NEW OPERATING PAVILION OF FABIOLA HOSPITAL TO BE ERECTED AT ONCE. C. W. Dickey, Architect.

The plans for the Fabiola Hospital annex have been accepted and ground will be broken in a short time for the new structure. The necessity for more room at the hospital has increased steadily this year and the institution is keeping pace with the rapid growth of the city. The annex will be planned as an first department of an ideal hospital on an elaborate scale. It is to be connected by corridor with the main building and has every modern improvement and up-to-date equipment.

## SECRETARY GARFIELD SHOWN BURNED CITY

SAN FRANCISCO, July 25.—James R. Garfield, Secretary of the Interior, had a very distinguished escort about the city this morning. The automobile party arranged by Arthur R. Briggs, president of the State Board of Trade, included a score of leading men. The party spent the entire morning viewing the city and at 1 o'clock arrived at the Fairmont, where lunch was served for the party in the main dining-room overlooking the bay.

The automobiles gathered at the St. Francis at 9 o'clock and were quickly filled from an invited list. The party first ran up to the top of Nob Hill to get a complete bird's eye view of what was to be seen during the morning's run. All the machines gathered in front of the Fairmont, while Governor Gillett, Mayor Taylor and General Funston viewed from another point on hills of interest to Secretary Garfield.

# WOMAN WILL PROSECUTE HER ALLEGED ASSAILANT

## Girl Finds Man Mother Charges With Making Criminal Attack in Bedroom With Parent.

Late this afternoon Sheriff Barnett and District Attorney Brown concluded their investigation of the charges of assault made by Mrs. J. W. Francis of 1515 Tenth street, Berkeley, against J. H. Baker, a salesman, employed by the Oakland A. & F. Company.

All that either official would say was that Baker would be held in jail until tomorrow morning pending the formal swearing out of a warrant by the accusing woman.

**WOMAN TO PROSECUTE.**

Mrs. Francis says that while she does not want to go into court, she feels that she must do so to save her reputation and the love and affection of her husband and children. When seen she said:

"He's the man who attempted to assault me. It was this way: I had been ironing at my daughter's house on Grayson street and came home tired late in the afternoon. I sent my 12-year-old daughter Carrie after meat, and told her that while she was gone I would take a nap, as I was very tired. My daughter, Bertha, was over at a neighbor's house and I was alone. I went to my bed in the next room and was soon asleep and don't know how long I slept there. I was finally awakened when I felt somebody putting his arms around my neck, and when I opened my eyes, saw a big fat man laying on the bed beside me and hugging me. I could not scream, when I did not so I could talk to him to get out, but he laughed at me."

## GIRL ENTERS ROOM.

"Just then my little girl came in from the front door and then opened the bedroom door and she saw the man. The man was in the bed with me."

## TESTIMONY AGAINST SON CAUSES WOMAN TO SHRIEK

### Mother of Chauffeur on Trial for Assault Maddened to Desperation—Judge Indignant and Rebukes.

"How dare you tell such a lie about my son," shouted Mrs. Sather this morning in Judge Ellsworth's court, interrupting testimony being given by Detective Jamieson of the Berkeley police force in the trial of her son, Edmund, for an alleged attack on ten-year-old Rosie Monk.

The officer was on the witness stand undergoing a sharp cross-examination by Attorney M. C. Chapman for the defense. He was telling of the route taken by himself with the young father after the arrest, to the county jail. Jamieson said that on the way down from the college town he stepped in a saloon, leaving young Sather on the sidewalk.

## Everything Always the Best

### Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alternatives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. We have no secret. We publish. J. C. Ayer & Co., Lowell, Mass.

### Woman's Nightmare

No woman's happiness can be complete without children; it is her nature to love and want them as much as it is to love the beautiful and good.

The critical ordeal through which the expectant mother must pass, however, is so fraught with dread, pain, suffering and danger, that the very thought of it fills her with apprehension and horror. There is no necessity for the reproduction of life to be either painful or dangerous. The use of Mother's Friend so prepares the system for the coming event that it is safely passed without any danger. This remedy is always available externally, and has carried thousands of women through the trying crisis without suffering. Send for free information. Write to the nearest druggist or to J. C. # CHINESE CHOP MANY HEADS

## Four Hundred Brigands Executed—Americans Tell of Terrible Famine Days

VICTORIA, B. C., July 25.—Rev. T. N. Thompson, who arrived by the Aki Maru from Hainan, told of the terrible famine in the Chinese provinces of Szechwan, Hunan, and Kiangsu. He said that the famine was the worst he had ever seen, and that it was caused by the war and the flood. He said that the famine was so bad that the people were eating their own children, and that the government was doing nothing to help them. He said that the famine was so bad that the people were dying in the streets, and that the government was doing nothing to help them.

## KILLS TWO WOMEN.

TOWANDA, Pa., July 25.—Charles Johnson, who will be hanged here today, was convicted for the murder of his wife and her sister. He was charged with the murder of his wife and her sister in September, 1904. Bigler Johnson, Charles' brother, was separated from his wife and was compelled to pay \$8 a month for support. In order to save the \$8 and get rid of the wife, it is charged that Bigler and Charles killed her and her sister. Charles confessed and was hanged about a year ago. Charles will be hanged upon the gallows upon which his brother was executed.

# CONTRA COSTA SUPERVISORS MAKE STARTLING DISCOVERIES

CONTRA COSTA, July 25.—The Contra Costa county Board of Supervisors, sitting as a board of equalization, are digging up a lot of interesting information concerning methods and results of taxation assessments. Yesterday the Pacific States Telephone and Telegraph company, with head office in Martinez, was shown by its representative, B. C. Carroll of San Francisco, to be very hard up; in truth, the big earthquake it had been through had done it. It was claimed that the net average earnings of each line in the city of Sacramento last year was only eighteen cents, and that the company was losing the country were being the company in debt. The company pays for franchise tax, in but twenty-seven counties of the state and the rates of valuation throughout are as about as undulating as the Berkeley hills. The valuation placed on the company's property in this county by Assessor Jones is \$50,000. In the course of the inquiry it was learned that the company was taxed for \$40,000 of property in San Francisco, \$50,000 in Alameda county and \$1,000,000 in Los Angeles.

## PLACED ON ROLLS.

Other taxpayers about the county have been cited to appear before the board and twenty-six names of property owners not assessed at all were ordered placed on the rolls. As investigations progress the sums kept piling up which Assessor Jones will have to answer to the taxpayers for. The board will be in session again today.

# HE WHO BREAKS WILL GETS \$10

## Manuel Soares Dies at Berkeley and Leaves Estate Valued at \$10,000.

Anybody who can successfully break the will of the late Manuel S. Soares, who died in Berkeley on July 12, will receive the sum of \$10 for his trouble. This provision is made in the testament that was filed for probate this morning by Attorney Phil M. Carey for Anne Soares, the decedent's widow, as executrix because of her kindnass shown him when he was ill at Berkeley. She is also left a legacy of \$200.

The remainder of the estate, which is valued at about \$10,000, is left as follows: To John Brazel, a piece of property situated by the Terra Da Canada dam, Palms, the town of Rosas, San Jose, Azores Islands, and of the \$300 rent from this property, the desire of Soares is that half of it should be left to the poor people of the town, to his three nieces, Mary, Rose and Anne Soares, he leaves the other property in the same town.

After the balance of his property holdings in Rosas is distributed to Brazel and his nieces, the residue of the estate is to be divided in the Azores Islands is devised to his sister, Mary Soares. Nieces of Brazel are bequeathed property in Yuba county. Some of the estate consists of money in the First National Bank at Berkeley.

# BEN SHAPIRO HELD; ABE IS RELEASED

The preliminary examination of Ben and Abe Shapiro, brothers and partners in a junk shop at the corner of Third and Castro streets, on a felony charge of knowingly buying stolen property, was concluded before Police Judge Smith this morning. Ben Shapiro was held to answer in the Superior Court under \$3,000 bonds. The charge against his brother was dismissed.

The two young men were accused of buying a quantity of gas fittings alleged to have been stolen from the yard of the Western Bottle Company by two small boys, Leason and Melville. The boys this morning acknowledged the theft of the fittings, which they said they sold to Ben Shapiro on the 24th of June. As there was no evidence to show that Abe Shapiro was present when the alleged purchase was made, the charge against him was dismissed. Owing to the extreme youth of the Flicks boys they were not prosecuted for the theft of the fittings.

There are two misdemeanor charges still pending against each of the Shapiros for buying property from children under sixteen years of age. These cases will probably not be heard until late in September.

# JACKSON STREET CARS TO RUN UNTIL 1 A. M.

SAN FRANCISCO, July 25.—Beginning Monday cars will be operated on the Powell and Jackson street lines until 1 a. m. and on the Market and Jackson street line until 1 a. m. The announcement was made by the Board of Public Works, which has approved the plan of the United Railroads to carry out the Montgomery, Post and Leavenworth street lines, which will be put in operation shortly, following the old route operated before the fire. The building material being used for the new line is being removed as rapidly as possible. The company claims that they now have 150 of their cars in work, three more having returned yesterday.

A general strike committee claims that the company's statements are false, that the men are standing firm in their support of the union.

# POLICE TAKE OFFICIAL.

SAN FRANCISCO, July 25.—Two cases of rock throwing occurred last night in the Richmond district. Police Officer Cavannah, while on duty at the corner of Fourteenth and California streets about 11 o'clock, heard two shots fired in quick succession, which came from the refuge camp nearby.

The officer, with Police Officer Kenney, hurried to the scene and found that District Superintendent Fred W. Voss had fired the shots and that the attention of the officer to several hoodlums who were stoning cars.

The policemen searched the camp, but failed to find suspicious characters, and they arrested Superintendent Voss for carrying concealed weapons and for charging firearms within city limits.

**CONDUCTOR ARRESTED.**

At 1:45 o'clock this morning Policeman McGorry was attracted to the neighborhood of Sixth and Clement streets by the report of a pistol shot. When he arrived at the scene the officer found that Motorist Lawrence Walker, a motorman on a Turk and Eddy street car, had fired a shot into the air to scare off two men who had been standing near a twelve-inch plank across the street.

The officer did not succeed in arresting the men, but took in Walker for discharging firearms within the city limits.

# JAPANESE AND U. S. OFFICERS AT BANQUET

BREST, July 25.—In the course of the dinner given by Rear Admiral Stockton on the American cruisers Washington and Tennessee last night, at which a number of Japanese officers were present, the Japanese and American officers, as well as some French officers, were present. Rear Admiral Stockton proposed the health of the Emperor of Japan and the Japanese navy. In reply, Captain Takano, of the Japanese cruiser, proposed the health of the President of the United States and the American navy.

The Japanese sailors are still confined to their ships and will be allowed shore leave until the departure of the American squadron this afternoon.

# Cremented Before Her Children

LITTLE ROCK, Ark., July 25.—Angered because her husband, a laborer, refused to praise her for her money, Mrs. Anna Lowe today poured a gallon of kerosene oil on her head, (old her little daughter to watch and see the show and then set fire to the oil. Mrs. Lowe's body was burned to a crisp in sight of her daughter and relatives, who were attracted by the child's screams.

# TWO MEN ARE FRIGHTFULLY BURNED

NILES, July 25.—F. W. Doan, a traction engine driver of Santa Clara, and Edward Lann, an electric lineman of 265 Dorland street, San Francisco, were terribly burned by a live electric cable carrying 66,000 volts at Niles yesterday and both probably will die. Doan is the most seriously injured. He was caught under the heavy cable and held amid the blazing mass of metal until rescued by C. T. Jones, who was knocked down three times by the power of the current and was painfully burned and bruised.

Doan's tongue was burned out, a deep hole was burned in his head, one eye is destroyed and he is blistered and cut in parts of the body. His clothing was scorched and torn almost to shreds. A. E. Newby reached the scene of the catastrophe in time to aid in the rescue of Doan and bystanders declare he risked his life in order to help the stricken man. Lann is almost as badly injured as Doan, both hands being burned and shattered by the powerful electric current, both legs broken and his face and arms blistered.

The accident was caused by the moving of an old house. A traction engine was engaged to move the building and was trying to cross the track of the Suburban Electric road. Lann was on the house and was lifting a telegraph wire over the roof, when the wire by its swaying motion came in contact with a high tension cable, which instantly burned in two, knocking Lann from the roof to the ground, a distance of twenty-five feet, and landing him in a terrible manner, but fortunately the cable did not drop on him.

Doan's first thought seemed to be to save the engine which he was operating. When the cable fell he rushed forward and began to disengage the cable, which he managed to do, but the engine and the house, but the squirming cable began to thrash the air, and in its gyrations caught and held him down, all the time burning his flesh from his bones and tossing him about with the restless power of the electric current. It was then that Jones lent his aid and finally succeeded in dragging Doan from the seething metallic maelstrom of cable and chain that had become entangled, leaving the man a prisoner in a fiery clutch.

So intense was the heat that the chain and cable where they came in contact were turned into molten metal. The screams of the suffering man were heartrending. Fortunately, unconsciousness came to him, and even before he was delivered from his perilous position. Every possible surgical aid has been rendered to the injured men, but slight hope of their recovery is entertained.

# Why Powder Was Taken From Warship Illinois

BOSTON, July 25.—Lieutenant Commander W. W. Gilmer of the battleship Illinois, explained today that a quantity of powder which was removed from the magazine of the battleship Illinois yesterday was not taken for any explosive of danger to the ship. He said the powder was taken out of "discharged," as the proceeding is technically known, from the ship and placed in the magazine at the navy yard, because it is customary after the ship has been stored in the ship's magazine for a certain length of time, to remove it to another place.

The Illinois has been in drydock since June 17.

# Jewish Women in Raid On Kosher Butchers

PHILADELPHIA, July 25.—The Jewish quarter was the scene of wild disorder today when the women of the quarter made demonstrations against all the kosher butchers as a protest against the increase of the price of beef.

The shops were invaded by angry women, prospective customers driven out, windows broken and kerosene in a number of instances was poured all over the meat in sight. Arrests were followed by demonstrations against two police stations to which several of the women were taken, and the police were compelled to use considerable force in dispersing the crowds.

# WILL NOT RUN THE ALL-NIGHT CARS

SAN FRANCISCO, July 25.—The disturbances attendant upon the present car strike still continue in a small way and the officials of the United Railroads do not feel justified in extending the night service on all their lines.

The residents of San Mateo have repeatedly requested the company that the suburban service to that city be extended to midnight. The company, however, maintains that the last car, which leaves Market street at 7 o'clock, is often stoned, and the windows are broken, before the round trip has been made and the car safely lodged in the Geneva avenue barns.

They say that while these minor disturbances continue, they cannot safely run night cars through the Mission district.

# FIRES SHOTS; FUGITIVE HALTS TO COMPEL ARBITRATION

AFTER an exciting chase of several blocks, during which Policeman Jorgensen fired two shots at the flying fugitive, Charles B. Hottell was placed under arrest last night and charged with making an assault with a deadly weapon upon J. Rodgers, night clerk at the Davis House on Sixth street, near Broadway.

According to the story told by Rodgers, Hottell, who occupies a room in the hotel, became involved in an argument with several other guests and annoyed by slapping a woman in the face, Rodgers interfered at this juncture, whereupon, he says, Hottell turned upon him, and struck him several times with his fists. Hottell, who was armed with a revolver, fired two shots at Rodgers, who was hit in the head and face. Rodgers' cries for assistance, and when he appeared on the scene Hottell dashed away down Sixth street. The policeman set out in hot pursuit, but was obliged to fire twice before he could bring the man to a stop. Rodgers' head and face were badly cut and bruised by the blows he received.

# MESSANGER BOYS TIE UP TELEGRAPH OFFICE

SALT LAKE CITY, July 25.—Business in the Western Union Telegraph office here is being hampered today by a strike of messenger boys, who are refusing to deliver messages to the telegraph office. The local management got four boys to go to work today, but the strikers assembled in front of the office and forced them to quit.

100,000 SHARES OF THE CAPITAL STOCK OF THIS COMPANY ARE OFFERED FOR SUBSCRIPTION AT \$100 PER SHARE.

This Company has been organized to loan money on income property in San Francisco on what is known as the bond and mortgage plan. This involves the issuance of bonds secured by first mortgages on income property and the sale of guaranteed mortgages.

AN EXCEPTIONAL OPPORTUNITY TO MAKE MONEY.

There is no investment safer than that offered by the SAN FRANCISCO BOND AND MORTGAGE COMPANY, and owing to the exceptional conditions, the earnings of its capital stock should considerably exceed 12 per cent per annum.

The SAN FRANCISCO BOND AND MORTGAGE COMPANY has three sources of profit.

1. Interest earned on its paid-up capital.

2. Difference between what it earns on mortgages and what it pays on bonds, which is usually 14 per cent.

3. Difference in interest on guaranteed mortgages sold by it, which is usually 1 per cent.

Similar companies in the east and foreign countries have had phenomenal success, earning from 12 to 16 per cent per annum.

Stock subscriptions will be received in OAKLAND at the UNION NATIONAL BANK OF OAKLAND, until July 31, 1907, also in San Francisco at the office of the company, 30 Montgomery street, and at the following places:

## Korea and the Philippines.

A number of American newspapers are severely criticizing the Japanese government for its treatment of Korea. The Japanese are charged with overthrowing the Korean government and tyrannously asserting their own authority over the Koreans, whose independence has been destroyed.

All this is true, but does it lie in the mouths of Americans to condemn what Japan has done in the hermit kingdom? Have we not done quite as bad, even worse, in the Philippines? Did we not assume to acquire by purchase political dominion over a foreign people in a distant land who were asserting in arms their independence of Spain? Have we not sternly repressed by force of arms and bloodshed the aspiration of the Filipinos for independence? Have we not done in the Philippines exactly what Spain did in Cuba and what Japan is doing in Korea? When we bought the shadow of Spain's oppression did we not institute the reconcentrado camp, that disgrace to civilization instituted by Weyler, and resort to the water cure torture to cure the Filipinos of the habit of pining for freedom?

Japan has an excuse for establishing her rule over Korea. The United States has none for asserting her dominion over the Philippines. The Koreans are incapable of protecting themselves against any other power. Inevitably they must fall under the subjection of either Japan, Russia or China, and the possession of the Korean peninsula by a powerful rival nation threatens Japan with destruction. Japan fought China to keep Korea from being incorporated in the Chinese empire. She fought Russia to prevent Korea from becoming a Russian province and the base of hostile operations against the Mikado's kingdom. She has now taken Korea under her authority by virtue of her victories over China and Russia and the treaty of Portsmouth. Her justification is the supreme law of self-preservation.

But with the United States and the Philippines it is different. Those islands lie nearly 6000 miles from our coasts, are part of another hemisphere, and are inhabited by a people alien to us in customs, habits, language and race. The Filipinos could never harm us. The possession of the Philippine archipelago could never be a menace to our liberty or commerce. Yet we are forcing our laws and government on the Filipinos by the mere right of might. We bought them like cattle from a master that could no longer hold them in subjection, and under the pretense of benevolence have stifled race and national aspiration far more ruthlessly than Japan has done in Korea.

Let us not add hypocrisy to our other sins. Let us not reproach Japan for the mote that is in her eye while the Philippine beam remains sticking in our own. We have failed to humbug ourselves, and we may be sure we cannot humbug the world. The plain facts of history and the logic of condition are against us. We would not be as patient and forbearing with the Koreans as Japan has been. Their incapacity for self-government and progressive development is infinitely greater than that of the Filipinos, and their craving for independence is futile because they cannot preserve it. The loss of their independence to any other power would be an unspeakable calamity to Japan.

Apparently it has not occurred to Mr. Hugh Craig that courtesy is about as desirable and necessary as practicality in a public discussion of a serious problem. His rude interruption of Professor Newcomb was an uncalled for violation of hospitality and the proprieties of the occasion. Mr. Craig is not the sole judge of the pertinency and practicality of the remarks offered by other gentlemen in the Industrial Peace Conference. Doubtless there are people who think they have heard Mr. Craig speak too often and too long. Many of them would prefer to listen to Professor Newcomb, who is a famous scholar and an eminent educator. His views have weight with many, despite Mr. Craig's opinion. At all events, it was not incumbent upon Mr. Craig to call time on a distinguished visitor in a manner calculated to give strangers the impression that boorishness is a California trait.

## Some American Song Writers.

The death of Captain Will L. Hays, the veteran song writer, in Louisville recalls the time when the whole country was singing and whistling "Nora O'Neil." Captain Hays had written other songs, but "Nora O'Neil" was the one that brought him fame. It is rarely heard nowadays, but it was immensely popular in the sixties. "Keep in the Middle of the Road," "Mollie Darling" and "De Little Old Cabin in de Lane" all had a great vogue, but none of them possess the vitality of Foster's songs. No song writer America has yet produced has put forth work of such enduring character as Stephen Collins Foster. Of course such songs as "The Star Spangled Banner" and "America" will be sung as long as the nation lives, but their appeal is to patriotic sentiment and the music is borrowed from foreign composers. Foster gave expression to the finer side of plantation life, and in doing so touched the heartstrings of all humanity. He has had imitators, who were popular for a time, but their memory and their songs have died away while "The Old Folks at Home," "My Old Kentucky Home," "Massa in the Cold, Cold Ground," and "Come Where My Love Lies Dreaming" are familiar airs wherever the English tongue is spoken. Hanby appeared to have touched Foster's mark in "Nellie Gray," but his popularity did not last. Oaklanders have written a number of songs of merit. The most notable, perhaps, is "Absent," by John W. Metcalfe, a beautiful sentiment set to a melodious air. This song is as popular in England as it is in the United States, but its living quality must be determined by a succeeding generation. Captain Will Hays had a spark of the bardic spirit that will linger long like a gentle fragrance, but he was not a truly great song writer. This is not faint praise, for the really great song writers of the world are not many. Burns was one of the greatest and one of the most prolific, though he caught and adapted the words and airs of a number of Highland songs crudely rendered before his time in the Gaelic.

California will be well represented in the new class at Annapolis. The class will be sixty-five larger than that of last year, which numbered 218. Among the Californians who passed the examination were Harry W. Hill of Oakland, Whiteley Perkins of Berkeley, and Daniel J. Callaghan of Fruitvale. Los Angeles, Sacramento, San Jose, San Francisco and Redlands are also represented. As usual, Maryland and Virginia have the largest representation, in proportion to population, of any of the States, Colorado and California excepted. Maryland claims ten and Virginia nine of the new middies. Colorado has five and California nine.

## A Story of Advertising.

Speaking of Oakland's growth, one of the largest drygoods merchants in the city recalled the fact that his first advertising contract with THE TRIBUNE called for a payment of \$12 a month. That same merchant now pays THE TRIBUNE \$25 a day for advertising and is well satisfied with results. He can better afford to pay \$25 a day now than he could to pay \$12 a month when he first began business in a small way in Oakland. He attributes his success largely to advertising. His business has grown to enormous proportions as a result of sound progressive methods, judicious advertising on a liberal scale and the rapid growth of the community. This merchant says Oakland has been made a great shopping center by the fact that her merchants were compelled, in order to build up a trade, to cut under San Francisco prices or see business pass their doors to go across the bay. Now no finer or larger stocks are carried anywhere on the Pacific Coast than by the big department stores of Oakland, and the scale of prices is still in favor of the buyer. That is one reason why this city has grown from a \$12 a month to a \$25 a day town, and why THE TRIBUNE has become the leading evening journal of California.

## THOSE QUEER IMMUNITY CONTRACTS.

It is not a particularly edifying proposition that District Attorney Langdon should have given Supervisor Boxton a written guarantee against prosecution for the sake of having him confess to what could be proved without his confession. We do not see that the prosecution has gained much by allowing all the Supervisors to confess in order to escape punishment. Even with all these confessions they do not seem to be punishing anybody. People will begin to think pretty soon that there is a whole lot of "flash in the pan" to that boodle prosecution.—Calaveras Prospect.

## AN OPPORTUNITY For a Man Who Can Sell

Not all good salesmen have good positions. Not all the men who have it in them to sell have yet found the right opportunity to develop this ability, or the position where their ability will be rewarded when shown. If either of the above applies to you, if you are all right as to character, capable as a salesman, and persistent as a worker, this advertisement is pointed right your way. The business referred to is the sale of life insurance; something that is certain to be more in demand every year. The Company referred to is the strongest in the world—best for policy holder, best for agent. A contract will be offered that will result in building up an increasing income each year. No previous experience is necessary; a course of professional instruction will be given free, but the position calls for work—it will never pay a quitter. If you are interested, drop a line at once to the undersigned, give your references, and tell him something about yourself. Don't simply send your address—that alone will not get the bill. All letters treated in strict confidence.

## PREACHER'S OWN SERMON ON VIRTUE HIS UNDOING

### Woman in Audience Moved by Burning Words and Confesses Guilty Laisons With the Speaker.

LINCOLN, Neb., July 25.—The Rev. W. F. Ferguson, pastor of the First Methodist Church, of University Place, a suburb, has been suspended from the church after a two days' hearing on charges of misconduct with Mrs. Cross, a member of his congregation, at whose house he boarded.

After hearing Ferguson deliver a powerful sermon on virtue Mrs. Cross confessed to misconduct with the minister at various places, including his study and hotel.

The hearing was before seven Methodist preachers from surrounding cities. Although Mrs. Cross was the principal witness, several others substantiated her testimony. She testified that it was not until she heard the powerful sermon on virtue that she realized her position. She finally succeeded in bringing herself

## SOCIETY: GOSSIP ABOUT SMART SET

Mrs. Eleanor Martin presided last evening at the most important affair given for Congressman and Mrs. Nicholas Longworth during their visit in San Mateo.

A perfectly appointed dinner, followed by a brilliant reception, was the program of the evening arranged by Mrs. Martin for the President's daughter.

The dinner was served early, and by 11 o'clock the dinner and the later guests assembled in the library to witness the vaudeville performance. Willie Zimmerman, the impersonator, entertained with imitations of celebrities. In compliment to the President's daughter, he "rendered" Theodore Roosevelt. Little Zimmerman and "Frank Woodward," the Chinese violinist, also took part.

MISS EDNA ORR, who is home again after a pleasant visit at San Mateo.

THE BARGAIN SPY.

The engaged girl was found studying life in an auction room, says the New York Press.

"I don't expect to buy anything," she said, "but I want to see if anybody I know buys anything. A lot of auctioneers are advertising that they have on hand bric-a-brac and pictures and odds and ends of furniture suitable for wedding presents. That set me to wondering if any of my friends would try to avail themselves of these auction-room bargains when buying presents for me. I saw two girls here this afternoon who have been invited to my wedding. One bought some kind of a brass bowl, another a vase. They got the things dirt cheap. I fancy they are for me. If they are well, just wait until these things are married."

## CONEY ISLAND KISSERS RAIDED BY MAD POLICE

### Excited Officer Breaks Through Crowd of Onlookers and Drags Couple Apart -- Innocents Locked Up.

NEW YORK, July 25.—"He kissed me and I knew 'twas wrong. For we were neither kith nor kin. Can punishment be very long For such a tiny little sin?"

A kiss fanned by the ocean breezes of Coney Island will hereafter cost the perpetrator and the recipient each ten dollars or ten days. Local Dogberys, incited to action by the diatribes of the Western preacher on the melting inferno of welded lips, have decided that the erstwhile paradise for love-lorn youths and maidens shall take the lead in the reform. They have weighed and considered the kiss—that "sugar-plum," that "candied confection of various colors and flavors," according to the dictionary—and pronounced it "disorderly conduct."

JUST "COMMON" CRIME.

The exquisite titillation of the senses, known to science as osculation, will henceforward be reduced to the dictum of the police blotter, and ancient couples whose emotions have been momentarily translated into one of these fleeting blisses will figure in the legend as disorderly and ill-conditioned persons.

To the travelers who daily rush to the joys of Coney via the Brooklyn "L" and surface lines this prohibition will come in the nature of a brutality. The Coney kiss is a privileged offender of long standing. Ordinarily it begins when the car leaves Brooklyn Bridge, and continues, with occasional pauses for breath, like an installment plan rap, until the beach is reached.

GUILTY YOUNG COUPLE.

Rosalie Miller, pretty and nineteen, didn't. How could she? She was with Benjamin Burg, her sweetheart. Feeling became too deep for words while they were on Henderson's walk yesterday, and Benjamin's lips, drawn by an irresistible attraction, affixed themselves to Rosalie's. They were still there when Detective Gleason, breaking through the crowd that began to gather, dragged them apart. He was suffering from shock when he trailed the two into the police station behind him. Having ascertained that Miss Miller lived at No. 345 East Fifth street, Flatbush, and Mr. Burg at No. 1429 Third avenue, carefully locked them up.

The detective carefully wiped his mouth with a large white handkerchief while the lieutenant wrote "disorderly" against the names of the couple.

## Takes Good Sense to Manage

The men who affect silliness in a sweetheart strongly object to it in a wife. As someone has said, they choose a canary bird and expect it to supply hen's eggs for the table.

The virtues of a sweetheart not infrequently are regarded as virtues in the wife. It takes good sense, a plenty of it, to manage a household, to administer an income, slender or stout, and to bring children up in the way in which they should go.

The woman whose folly and frivolity were charming when taken as an occasional amusement may be quite the contrary when she becomes the companion of a lifetime.

Few men, especially before marriage, realize the fact, stubborn though it be, that the lack of brains is a positive, not a negative quality. It is not the mere being without—a vacuum which may be filled to order and to taste. There is no human being so obstinate, so wholly unmanageable as a fool.—Helen Oldfield, in Chicago Tribune.

## ROBBED OF HIS LICENSE MONEY ON WAY TO ALTAR

### Gay Constable, Aged 64, Loses His \$400 Roll While Proposing to Lead Bride of 62 to Parson.

PITTSBURG, July 25.—John C. Livingstone, of Wilkesburg, constable for Alderman J. D. Walker, was the victim of a heartless pickpocket today, who, in addition to robbing him, nearly succeeded in robbing cupid.

Livingstone, who is 64, was leading Miss Annie Dunlap, 62, to the office of the marriage license clerk, and intended from thence to make a triumphant march to the altar. Livingstone secured his license on schedule time, but, alas, the

constable could not pay for it. His wallet, containing a tidy sum to provide for his prospective honeymoon, had disappeared. The constable had been touched. Livingstone thought the excitement had caused him to drop the wallet en route, but it could not be found. It contained over \$400. Sympathetic clerks in the office soon pooled enough to pay the constable his fee for the license, and Livingstone and his bride-to-be left the office more determined than ever that economy must be practiced in order to enjoy a happy matrimonial career.

## THE EXCEPTION TO THE RULE

You're reading of a heroine who saves a rushing train By crawling o'er a slender bridge, in time of wind and rain; She waves the danger signal—a wisp of burning hay— The train is stopped—and here it comes, as night doth follow day; "Then she fainted away!"

You read of some bold hold-up, who was quickly put to rout By a muscular young lady who nearly knocked him out; You learn how with two uppercuts she won the short affray, And at the end you will not fail to get this news passe; "Then she fainted away!"

But take a bargain Monday—a great crush at the store; Around the ribbon counter the tides of commerce roar; She plunges in the vortex and fights as best she may, But when this struggle's over no truthful man can say: "Then she fainted away!"

## RELICS OF BARBARISM IN PRESENT DAY MARRIAGES

### Cultured Customs Reflect Acts of Wild Man in Fighting for and Holding to His Bride.

"Marriage by capture still survives in a good many parts of the world," said an antiquarian. "Every man, when he marries, unconsciously recalls traces of that old, barbarous custom. 'Relics of it are found in the wedding ring. One sometimes hears that the end-less ring is symbolic of endless love. Nothing of the sort. It symbolizes the struggle between the sexes, based on the fact of violent passion.'"

## Quince Juice for the Skin.

Society girls in one of the smartest sets are experimenting with quince juice for beauty purposes, says the New York Press. One of them heard recently that the juice of that comparatively rare fruit was excellent for the complexion and she communicated the information to her chums without loss of time. As a natural consequence, a demand for quinces instantly became apparent in that part of the city where the experimental young persons live, and now their relatives are awaiting anxiously the results of the tests. It is not divulged how the juice is to be taken. Almost any fruit is good for the complexion when eaten, but it's a question how far quince juice will benefit the skin hue and texture when applied from outside. To the credit of the experimenters be it said, they are not attempting to spread the idea without waiting to try its effect on themselves. Less considerate girls might be tempted to have their acquaintances do the experimenting, precisely as the selfish young woman of the neighborhood used to have her shoes broken in by needy friends. If there's anything in the idea, however, every woman who thinks her complexion calls for improvement is certain to test it for herself. When it comes to herolism, the eternal feminine is on the spot, so long as there is a reasonable prospect of beating the beauty doctor.

## DOFF SLIPPERS AND HOSE AND SPLASH IN THE BRINY

### Far From the Sight of Curious Man, Forty Tiny Tootsies Toss Galloping Spray Skyward.

NEW YORK, July 25.—Little-neck clams stretched their spinal vertebrae and blue points blushed a deep crimson yesterday when a score of pretty girls, members of the Coney Club, one of the social organizations connected with the West End Presbyterian Church of this city, took off their shoes and stockings and waded into the surf at Sea Cliff, L. I. Forty tiny tootsies tossed the spray in as many directions, and oh, dear, such a time as there was!

The girls have an entire floor at the Grand View Hotel, where they have been for several weeks. C. J. Cone has been acting as chaperon. Yesterday afternoon the girls had a clambake at Fort Washington to which the men were not invited.

"Now, girls," Mrs. Cone is reported to

have said, "we'll do everything just as the men do. Pitch in and eat your fill. If you would be well fed, feed yourself." Following the putting away of steamed clams, chowder, chicken and corn, one of the girls suggested an old-fashioned romp in the briny.

"Most certainly not," said Mrs. Cone, when permission was asked.

"Please, dear, good Mrs. Cone," chorused the maidens, "please let us paddle."

"I don't like to spoil your pleasure," said the chaperon, "go ahead. But be quick about it. One of those horrid French heeled slippers and Swiss chausse stockings were discarded in a jiffy and the splashing parade was soon under way. Although the breakers were high not a single skirt was dampened. One lucky male witnessed the water walk—a lad of three years.

## Summer Dress Accessories.

Belts, collars, veils, gloves, shoes and stockings—all the little details of the costume—count so tremendously in the tout ensemble of the outfit that a good part of the allowance should be kept to be expended on just these so-called—misnamed—minor articles. Half an inch more or less in the width of the belt from season to season often stamps a gown as smart or out of date, while by the height of the collar band, the width of the veil and the color of the shoes and stockings a well dressed woman can at once be picked out in a large assembly.

The studded belt an inch in width is again the stylish finish to any cloth street suit and for separate skirts, unless it is more becoming to have the girdle attached directly to the waist. With a silk shirt waist dress this narrow belt will be worn, but wide crush belts of silk or ribbon with a large silver or gold buckle are preferred by many as being more appropriate with a gown of this material. In the South, with linen dresses and separate white skirts, two-inch belting, fastened with a handsome buckle of the correct shape, is the most popular model, although narrow linen ties are also in vogue, provided they are more becoming than the wider stiff belting. Hand-embroidered linen belts, with a white metal or silver buckle, are also extremely pretty with the white shirt waist costumes. Princess and Empire frocks are still so very fashionable as to make it difficult to say just what style of girdle is most in vogue, for with the dresses made in two parts, waist and skirt separate, all possible widths and models are to be seen—some costumes with narrow one-inch belts and others again with wide draped girdles. Large buckles have just lately become very popular, and a handsome rhinestone or fancy clasp is always an effective finish to a ribbon belt.

## ELOPE, STARVE, STEAL; HONEYMOON SPENT IN JAIL

### Hunger Drives Wife to Rob Employer—Bride and Bridegroom Sent Weeping to Prison for 90 Days.

PITTSBURG, July 25.—Because hunger drove them to steal, Robert Gerlich, a youth of 24, and his wife, Mary, aged 23, were sent to the workhouse to spend their honeymoon for ninety days.

Gerlich and his bride both to Youngstown a few days ago, and both have been sick and poverty-stricken ever since.

The young table couple for up to 90

employment, pleading that she needed food. This morning she left hastily, and immediately after a pair of women's shoes and a diamond brooch were missing.

Detectives located the young pair and both were placed under arrest. Magistrate Hadfield fined them \$25 each, on a charge of being suspicious persons, and when, in default of the fine, both were sent to the workhouse for ninety days, the young bride and bridegroom wept bitterly.

## FOR PARK IMPROVEMENTS

### Residents West of Market Street Say It Is Time That Their Section of the City Should Be Recognized.

WEST OAKLAND, July 25.—Weary with long deferred hope of having park improvements provided in this section of the city by the municipality, citizens are now resolved to make a supreme effort in hope of inducing the city council to include in the next annual budget an appropriation for improvement of the ten-acre tract acquired several years ago for park purposes. It is the intention to hold a meeting next Tuesday night under the auspices of the West Oakland Improvement club, and to resolutions which they desire in no uncertain terms. These may also be resolutions adopted relative to water front improvements.

While property owners in this part of Oakland have been contributing taxes to the support of the municipal government many years, they feel that less consideration has been paid West Oakland than it deserves. West of Market street there is not a single improved yard. This is especially a residence section, except along portions of Seventh street, and the water front and railroad yards. Each succeeding year sees the residences more numerous and the vacant lots less in number. Thousands of children for recreation are compelled to play in the public streets. Adults must travel long distances to other sections of the city or cross the bay if they would enjoy an outing in a park.

Now these citizens are learning that they will be called on to pay taxes on greatly increased valuations of their homes and lots. From the municipal headquarters they hear frequent reports of increased expenditures for additional employees, for increased salaries of old employees and for contentment of the district west of Market street. While they find no fault with the propositions to spend a million dollars or more in

acquiring park lands in the Lake Merritt and adjacent region, yet they argue that a few thousands are due to be spent in improving the ten-acre park in this end of the city.

Therefore the West Oakland Improvement club will meet and ask the city council to redeem ancient promises to improve the ten-acre tract purchased years ago for park purposes.

By the ruling which will go into effect on August 30, whereby the Southern Pacific will interchange with the Santa Fe at Stockton, Fresno and Bakersfield, the Santa Fe will be put on a party with the Santa Fe and the shippers of the state will be benefited.

Under the present system a merchant located along the shore Pacific line could ship to the Santa Fe at Mojave, giving the Southern Pacific the shortest haul possible, but there was no relief for the merchants along the Santa Fe. Now, however, the man on the Santa Fe line can so route his freight that the Santa Fe will receive only the haul from the three points mentioned.

CRUTTSCHNITT ARRIVES. Julius Cruttschnitt, director of maintenance and operation of the Harriman lines, arrived here last night. After a stay of a few days he will leave for the southern part of the state to make a thorough inspection of the properties of the Southern Pacific in that section, Arizona, New Mexico and Texas. He probably will go into Mexico to look over the Southern Pacific in that section, been in Oregon and Washington looking over the Harriman interests in those states.

## DIVORCED WIFE SEEKS ESTATE

### Kin Who Deserted Man in Life Now Fight for His Property.

SAN FRANCISCO, July 25.—Neglected in life, and deserted by friends and kin, Walter K. Dell, who died in the alms house, left property over which every one is now making a fight.

His creditors favor a petition for letters of administration filed by the public administrator, and the dead man's former wife, Isabella S. Dell, who was divorced some years ago, wants the control of the property placed in her hands. The heirs at law of Dell are his four grown children, only one of whom is a resident of California. Dell lived for years in Contra Costa county. The property of Mrs. Dell is accumulated an estate which the creditors say is worth \$20,000, but which L. A. Winters, lawyer, attorney for Dell, values at \$7500.

SENT TO ASYLUM. Dell was fond of liquor and this weakness caused his death. He was in the hospital for some time before he died. He was declared incompetent and sent to the asylum, but even that did not end his troubles. He was adjudged insane and committed to the asylum.

Now a contest over his estate is on, and the hearing is expected to bring out interesting testimony. The creditors charge that the estate has been mismanaged, the other side declares that the creditors seek more than is their due.

FIND WOMAN MURDERED AND MAN UNCONSCIOUS. CHICAGO, July 25.—Mrs. Emanuel Bloom, 43 Belmont avenue, was mysteriously stabbed and killed in an apartment early today. Half an hour later her husband was found unconscious on the ground in the rear of the flat building, evidently having jumped from their flat, which is on the third floor.

Bloom was taken to Alexian Brothers hospital still unconscious. A policeman was present to guard him and he will be held under arrest until the mystery is cleared up.

CALLS PHYSICIAN. It was about 1 a. m. when Bloom went across the street to the house of his residence of Dr. Evan L. Barry, aroused the physician and told him that Mrs. Bloom was apparently dying of a heart ailment. The doctor went at once, but Mrs. Bloom was dead when he arrived. He said she had been to death and that the crime, of whatever sort it was, had been committed but a short time before.

KNEELS OVER BODY. Dr. Barry went to his house and notified the police at once. He said that he had found the body of Mrs. Bloom in the rear of the flat building. They searched for Bloom and finally found him on the ground in the rear of the flat building. He was unconscious. The neighborhood was searched for a trace of any other person who might have been involved, but no one was found.

DRYANT'S DAUGHTER DIES. NEW YORK, July 25.—News of the death in Paris of Julia S. Bryant, who was the only surviving daughter of William Cullen Bryant, the poet, has been received in this city. She was 75 years old and until her father died in 1875 was his constant comrade and associate at his home at Roslyn, L. I. In 1875 she went to France, where she has since lived.

## CUT RAILROAD MAIL REVENUE

### Federal Officials Issue Order Which Will Yearly Save \$1,000,000.

CHICAGO, July 25.—The revenue derived from hauling the United States mails by the railroads running west from Chicago, St. Louis, St. Paul and Minneapolis and the Missouri river is to be further reduced approximately \$1,000,000 a year as the immediate result of the reports of 125 inspectors, who have been sent to inspect the mail routes, determining whether the space used in railway postal cars by the government was in excess of space sufficient to accomplish the work.

CUT DOWN SPACE. Yesterday officers of Chicago mails on the Western mail route, which enters in Chicago, received notice from the postoffice department cutting down the space allotted in the railway postal cars by a reduction of 10 a mile, or a saving for the government of \$1,000,000 a year. There are likely to be six cars on the route making a total saving of \$45,000 for one postal route.

KILLS HIS WIFE, BUT NO ONE BELIEVES IT. CHICAGO, July 25.—How difficult it is to get arrested, even if one has killed one's wife, was told yesterday in Judge Karston's court by Charles Graff, now on trial. He admits he killed the woman with an ax on the night of March 31, but says he did it in self-defense.

In the morning he went to Maxwell street station and told the police he was himself up, but the desk man thought he was joking when he mentioned murder. At a saloon his statement that he had killed his wife was received with similar incredulity. The secretary of the police department was incredulous, but finally was convinced. By this time the police had found out a woman was dead and Graff succeeded in getting himself arrested.

RICH ARMENIANS FEAR "HUNTCHAK" SOCIETY. PROVIDENCE, R. I., July 25.—Three prominent Armenians of this city have been approached for money by the Huntchak society. The organization, it was learned, is divided into two factions with a total membership of about one hundred and is endeavoring to raise money out of the wealthy Armenians.

John Bazarian, member of the firm of Bazarian Brothers, wealthy rug merchants, admits that he was called upon by members of the organization and asked for money, but he refused them. Rev. Vartanian, the only Armenian clergyman in the city, was another to whom the appeal was made, but he, too, refused. The third one did likewise. It is plainly evident here that the Armenians have a dread of the Huntchak, and for that reason will not tell much.

Best Medicine in the World for Colic and Diarrhoea. "I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skrum, Ala. "I am subject to colic and diarrhoea, and I would not be without it. I have taken Chamberlain's Colic, Cholera and Diarrhoea Remedy many times and it has cured me every time. I feel like a new man. For sale by O'Connell Bros., Seventh and Broadway, and Twelfth and Washington."

GUILTY HUSBAND AND WIFE GET THE LIMIT. Police Judge Mortimer Smith yesterday imposed the extreme penalty for vagrancy upon W. A. Carter and his wife, Anna Carter. The evidence furnished by the police showed that Carter, his wife and their 15-month-old child had occupied a room in the St. Lawrence house at Seventh and Franklin streets. It is alleged that Carter received his wife and child by leading a questionable life and by encouraging her degradation by soliciting for her on the streets.

"I regret," said Judge Smith, in pronouncing sentence, "that the law does not permit me to punish you more severely. This is one of the most revolting cases that has ever come to my attention. Six months each in the city prison."

## TO HAND OVER GOLDEN KEY

### Local and Visiting Eagles Are to Assemble to Witness Unique Ceremony.

Monday night next local Eagles will witness the impressive and important ceremony of the transfer of the golden key of office. Aerie No. 7 and many visiting Eagles are expected to assemble to view the transfer in Castle Hall, the fraternal meeting place of the order of the Golden Key, by Dr. Tom Carpenter to Dr. Mohrman.

This golden key is an emblem of office, being symbolical of the State presidency of the order. Some time ago the gift was made by the Mayor of Bakersfield to Dr. Mohrman on his retirement, but it got into the official hands of Dr. Carpenter in his capacity, ex-officio, during the absence of the rightful recipient.

The bestowal of the key upon Dr. Carpenter left some lodge technicalities to be straightened out, and it was decided to adjust the matter in a monster lodge meeting at the next gathering of the Eagles at their aerie. Members of the lodge from all parts will be present, and the event promises to be one of special interest.

RESCUE MISSION NOT TO LEAVE OAKLAND. Editor TRIBUNE: There appeared in one of Oakland's dailies a statement to the effect that the Whosoever-Will Rescue mission is being moved to San Francisco. The Whosoever-Will Rescue mission of inter-denominational interest. It belongs to the people of Oakland and is supported by the different churches and Christian-spirited people, and can not be moved.

Japanese Officers Guests of Republic. PARIS, July 25.—Because of the contention of the recent Franco-Japanese entente, the official entertainment of Vice-Admiral Sir Gero Ito and the other officers of the Japanese warships who arrived in this city from Brest this morning, is to be on a somewhat more elaborate scale than that which was arranged for the American naval officers from the cruiser Washington and Tennessee, who came to the French capital last week.

Former Orphan Gives Generously to Home. SAN FRANCISCO, July 25.—S. W. Levy, president of the Pacific Hebrew Orphan Asylum, received a check yesterday for \$1000 from Julia R. Fogel of New York, formerly an inmate of the orphanage in this city, the money to be expended for the benefit of the institution at the discretion of President Levy. The gift is the more gratifying to the officers of the institution because Fogel craved his appreciation of the benefits he derived from his training at the local orphanage by frequent generous gifts.

He sent a check for \$1000 on a former occasion, besides several gold medals for distribution among the orphans for special merit. He is a patron of the orphanage, having lived in unusual days. Fogel, while an inmate of the orphanage, was awarded the Behrend medal with its contingent \$250 in cash for excellence in deportment and proficiency in studies. That \$250, he claims, gave him the start upon which he embarked in business after leaving the orphanage. He has since acquired considerable wealth and is the head of an extensive manufacturing business in New York bearing his name.

His check was accompanied by a letter replete with affectionate expressions for the orphans and its officers. He sends gifts for the orphans on holidays and for all special occasions, although he graduated from that institute fully thirty years ago.

## PREACHER DISAPPEARS WITH CHURCH MONEY

### ROME, Ga., July 24.—Rev. Henry Wilmer, who posed here as one of the proprietors of the Pacific Manufacturing Company of San Francisco, who offered \$9200 for the old wooden sloop of war, Marion, now lying at the navy yard, Mare Island, recently stricken from the naval register as unfit for naval purposes. The Marion was built by the government in 1871 at Kittery, Me., and has rendered creditable service in all parts of the world.

## PAYS \$9200 FOR OLD SLOOP OF WAR MARION

WASHINGTON, July 25.—Acting Secretary Newberry has accepted the bid of C. E. Boudrow of San Francisco, who offered \$9200 for the old wooden sloop of war, Marion, now lying at the navy yard, Mare Island, recently stricken from the naval register as unfit for naval purposes. # OAKLAND IS BEST AUTO CITY IN THE WHOLE STATE

**Automobile Dealer Declares That We Sell More Automobiles Than Any Metropolis in Commonwealth.**

"There is no better automobile city than Oakland in the state," said a representative of one of the best-known auto manufacturing companies in the country, to THE TRIBUNE representative.

"Relatively speaking, we are selling more cars today here than they are in San Francisco. This may sound strange, but it is a fact nevertheless."

"The selling of automobiles in Oakland, is really like selling groceries. Everybody, directly or indirectly, must patronize the grocer, but, of course, one must first select his grocer. The grocer, at the outset, does not come to you. You go to him, after you find him."

"It is not like that in the automobile business. The man who wants an automobile is like the man who wants to find a grocer to his liking. He, at length, finds the automobile agent whom he wants to deal with and then a purchase follows. The agent does not have to find him. The people are hunting for automobiles. There is no necessity for the agents hunting for the people. I mean no offense by it, but really, the automobile craze has so taken possession of the community that it would seem as if people who did not have cars on their floors were purchasing cars—and paying for them, too."

**AUTO POPULARITY.**

The popularity of the automobile in Oakland is one of the marvels of the time. When the telephone was introduced, years and years ago, many months passed before the invention was deemed an essential in all well-ordered homes, offices of professional men and commercial and manufacturing institutions.

Now, however, the telephone is omnipresent. Indeed, without it, the home or the office, the store or the manufactory would be sadly hampered.

Relatively speaking, the automobile has more readily found favor with people in comfortable circumstances, than did the telephone, and yet, the same automobile would pay telephone tolls for years.

Where the business man formerly used street cars to keep an engagement, he now utilizes his auto. Where the doctor at one time used to telephone for his horse or his team to answer a night call, he now goes to his home garage and flies away in his own auto and is at his patient's bedside before the telephone wires which transmitted the call to him have ceased vibrating. In fact, the auto is everywhere and one of the questions which must be solved one of these years, is "What shall we do with our horses?"

**HUGO ABRAHAMSON.**

Lake county seems, this year, to be a Mecca for autolists. To it, there has been a procession of cars such as was never before witnessed. A more pleasurable trip could not be taken. This is not alone because of the pleasure which may be experienced in the immediate vicinity of the lake, but because of the rest and recreation which may be enjoyed in the various thriving resorts on route.

Hugo Abrahamson, of the dry goods firm of Abrahamson Brothers, is one of the latest arrivals from the county of Alameda. He made the round trip in his auto, an elegant Stevens-Duryer of thirty-horse power. He was accompanied by his wife and family and a chauffeur, but he occupied the seat at the wheel throughout the trip.

The party luxuriated at the Blue Lake Hotel, Laurel Dell, Yavapai Springs, Aetna Springs, Vicky Springs, Highland and other places and returned home with renewed vigor and elasticity of spirits sufficient to withstand the wear and tear of years of business transactions. At Yavapai Springs, Mr. Abrahamson found Senator Perkins in full enjoyment of the pleasures and relaxations of the place. Speaking of the outing, Mr. Abrahamson said it was a great thing to get away for a short time from the cares of business and to find a place where there was nothing on one's mind save the search for rest and pleasure. Each meal was taken in a different resort and, at night, rest was found on a different couch. On the way to Lake County, Mr. Abrahamson passed through Sausalito, Ross, Greenbrae, Sausalito and Lakeport and on return trip went from Lakeport to Middletown, intending to go over the Calistoga grade to St. Helena. He arrived after 5 o'clock in the evening at the toll gate, however, and was informed that the grade was too steep and too dangerous to descend at that hour. He then made a detour of about forty miles, and finally reached Aetna Springs.

**BUYS OLDSMOBILE.**

E. O. Jones has purchased a forty-horse power Oldsmobile which can be used in lively business work as also in making extended tours. As some one has said, this style of machine is capable of climbing the side of a house, and Mr. Jones' friends are anxious to learn whether or not he intends, as a means of recreation, to attempt the accomplishment of such a feat, which, of course, would require a great deal of money.

**ARTHUR BREED.**

Ex-City Auditor Arthur H. Breed makes as much use of his auto car as any of the enthusiastic autolists of this city. He has just returned with his friend, Mr. Breed, from a glorious trip to the Santa Cruz mountains and pleasant sojourns in Watsonville, San Juan, and other towns in that section.

**A Memorable Day.**

One of the days we remember with pleasure as an auto trip to our health, is the one on which we became acquainted with Dr. King's New Life Pills. The pills cured our various ailments and brought us back to our normal state of health. We are now feeling better than ever and are able to do our work with ease and efficiency.

**LOS ANGELES FIGHTS FOR TELEGRAPH TAXES**

LOS ANGELES, July 25.—Los Angeles will attempt to collect taxes from Western Union and Postal Telegraph companies by a new form of assessment. Hitherto these companies have escaped taxation upon local property upon the ground that they operated under a Federal franchise. The city assessor this year levied assessments against their "occupancy of the street," assessing the Western Union \$100,000 and the Postal \$50,000, exclusive of their personal property holdings.

The companies have started injunction proceedings to restrain collection of the taxes. The city will fight the case through, believing that at last it has struck upon a lawful method of assessing the holdings of the telegraph companies. The city, it is stated, are watching the experiment with great interest, with a view to instituting similar assessments against the companies.

**CONFECTIONERS AND BAKERS IN ELECTION**

At the semi-annual election of officers for the Bakery and Confectionery Workers' Union the following officers were elected:

President, David Burkhardt; vice-president, Joseph Hayes; recording and corresponding secretary, Edgar C. Graham Jr.; financial secretary, Fred Fischer; assistant financial secretary, Frank Duff; treasurer, Adolph Lion; sergeant-at-arms, Karl Kapp; trustees, Charles G. Wright, Jack Pestall and Wiley M. McDuff.

**FOR THE POOR.**

The following circular is self-explanatory: "Home for the aged of the Little Sisters of the Poor, corner of Twenty-second and Webster streets, Oakland, Cal.

"With the approbation of His Grace, the Most Reverend Archbishop of San Francisco, the Little Sisters of the Poor have opened a home for the aged poor in Oakland.

"The conditions for admission are that the applicant be of good moral character, destitute of all property, and of advanced age. No distinction is made as regards creed or nationality.

"The Little Sisters of the Poor devote themselves exclusively to the care of the aged and destitute poor of both sexes and have to provide their inmates with food and clothing, to nurse and watch them when sick.

"For that object they have no fund or income whatever, but depend entirely on charity to support their homes.

"Hence they are obliged to go around collecting donations of money and food.

"Clothing very thankfully received by them when sent to the home. The prayers of the community are offered every day for all benefactors of the home. Please remember the aged and infirm poor. Visitors admitted daily from 2 to 4 p. m."

**DOLORES MINE DECISION.**

MEXICO CITY, July 25.—A decision of the Supreme Court, enforced by Federal troops, has dispossessed J. H. Hutchinson and his associates from the Dolores mine, situated in Santa Juana district, State of Chihuahua.

F. Augustus Heinze is said to be largely interested in the property. The successful claimant to the famous mine is Aguirre Navarrete.

**BELGIUM TO OBSERVE.**

BRUSSELS, July 25.—The close of King Leopold's long struggle to stave off the annexation of the Congo to Belgium and to retain his personal sovereignty over this rich and extensive African state, is foreshadowed in the agreement reached on July 18th between the Belgian and the Congo governments, abolishing the terms upon which the Congo Free State shall pass into the possession of Belgium.

# WOMAN DIES ON GALLOWS

**Attempted Assassin of Russian Officials Refuses to Seek the Czar's Pardon.**

MOSCOW, July 25.—With the observance of great privacy, Madame Fromkina, who in March last attempted to assassinate General Reinhold, the ex-prefect of police, and who in May made another attempt to murder the inspector of the political prison here, was hanged in this city at sunrise today.

The authorities made every effort during the fortnight to persuade the woman to plead for the mercy of the emperor, but she obstinately refused to do so. Her parents interceded with the throne in her behalf, but their efforts were unavailing.

Mrs. Fromkina was not charged with actual murder, but accused of making several intellectual attempts to kill officials. It is believed her mind was unbalanced and she was suffering from hysteria.

**S. F. SUPERIOR COURT CALENDARS OVERLADEN**

SAN FRANCISCO, July 25.—The Superior Court in this city are loaded down with litigation. This is shown by the fact that Presiding Judge Coffey has assigned 717 cases among the twelve departments of that court between January 7, when he became presiding judge, and June 30. Of these 539 were civil, 871 June 30. Of these 539 were civil, 871 June 30. Of these 539 were civil, 871 June 30.

## BASSETT WILL FOR PROBATE

Document Filed by Trust Company Acting as Executor—Several Beneficiaries.

The will of the late Charles F. Bassett, former United States shipping commissioner at San Francisco, and who died on July 20 at Alameda, was filed for probate this morning by W. J. Barnett, attorney for the California Safe Deposit and Trust Company, which is named in the testament to act as executor. The deceased left considerable wealth, but the petition for probate of the will states that the estate consists of money in savings banks in amounts exceeding \$10,000.

Devisees of the will are as follows: To his niece, Lella F. Rockwood of Millard, Mass., \$20,000; to his brother, Addison Bassett of Fruitvale, \$500; to Mrs. A. J. Boiling of Alameda, all his furniture, wearing apparel, jewelry, books and books of all kinds; to his niece, Mrs. J. J. Smiley of San Francisco, to Margaret L. Smiley of San Francisco, to Mrs. A. J. Boiling, to Lella F. Rockwood, to his niece, Emma A. Booth of Milwaukee, Wis., and his niece, Ruhamah Bassett of Lebanon, Indiana, all the residue of the estate.

In a codicil to the will the decedent willed that \$100 a month be made as an allowance to his niece, Lella F. Rockwood, at Millard, Mass.

**BOUGED OUT WIFE'S EYE**  
(Continued From Page One.)

But my eye I cannot even thread the needle, and do not know how to earn a living for my fourteen children and myself.

**SADLY NEGLECTED.**

"My husband imagines that I have lots of money, and that I should support the whole family myself. He has not bought any groceries for a month, and has declined to pay the rent of our house, or the water bill. As I cannot sew, and I have nothing to eat, I shall have to depend on the good people of this county to support me, unless there is some way to force my husband to do his duty."

Mrs. Baums further added that her husband stole a watch from her the other day, the only valuable she had, also some clothing, all of which he sold.

**ARRESTED MONDAY.**

Baums was arrested last Monday on the charge of assault and battery, and was released upon bonds being furnished by some friends. He has not so successfully in securing bonds this afternoon, the other charge preferred by his wife. He declines to make any statement in the case.

When Mrs. Baums appeared in court this morning her injured eye was bandaged, and she seemed to be suffering intensely.

## THE RAILROAD PAYS THE BILL

### The Bargain Event of Pianodum

MANY SLIGHTLY MARRIED A RARE BONANZA  
PIANOS TO BE SOLD FOR ALL SHREWD  
FOR RAILROAD COMPANY PIANO BUYERS

Take Them at Practically Your Own Figures—Easy Terms if Desired

A Guarantee With Each Piano And Your Money Back if Not Satisfied

"Sell these pianos for what they will bring—whatever the loss is we will make good to you."

These words of the Claim Agent of the Railroad Company explain in a nutshell what we are going to do tomorrow morning.

A large shipment of high grade pianos have been more or less damaged in a railroad accident near Omaha.

We at first refused to take the pianos but when we found that every one of the instruments was perfect so far as the interior mechanism was concerned, we finally accepted the above proposition of the Railroad Company, and the pianos are now at our Oakland and Berkeley stores, at practically your own prices.

Take your choice tomorrow from among this large lot of fine pianos, but scarcely ever a piece.

Places where it really matters but little, anyway—take your choice of this lot for half price. A good \$350 piano for \$125, \$442, etc. A \$450 piano for \$190, \$225, etc.

To make it interesting we'll make it even less than that on some of the instruments. A fine high grade player piano that has been sold here for \$750—you can take now for \$200—and remember, that you can not lose, because we guarantee these pianos and your "money back" if you are not perfectly satisfied.

## WOMAN FORGER KNOWN HERE CAUGHT IN SEATTLE

ROSE ANDERSON, WHO HAS JUST BEEN ARRESTED IN SEATTLE CHARGED WITH FORGERY.

## She Cut a Wide Swath in Oakland's Gay Night Life—Left Lots of Bad Checks Behind Her

Acting Chief Petersen received a message from Seattle this morning, announcing the arrest there of Mrs. Rose Anderson, alias Rose Anderson, for passing a fictitious check. Mrs. Anderson was formerly well known in Oakland. For many months she cut a wide swath in the gay night life of this city, and her sudden departure for regions unknown was followed by the discovery that she had succeeded in well-nigh flooding the town with worthless checks.

Complaints from numerous sources reached the police and an earnest effort was made to trace her movements after she left the city. Until recently, how-

ever, she succeeded in keeping her whereabouts effectually concealed. Last week her long hair for the old high life proved too strong for her, however, and she attempted to secure \$300 in Seattle by the old easy method of writing out a check on somebody else.

**MAY BE BROUGHT BACK.**

This time the game failed and her detection and arrest followed. It is probable that she will be brought to this city after the charges against her in the north have been settled. Her last successful "trick" in this city is said to have been the passing of a check for \$100, which bore the fictitious endorsement of Colonel J. Townsend, the well-known local clubman.

**COAL STRIKE FORCES MILLS TO CLOSE DOWN**

BELFAST, July 25.—Unable to obtain coal as a consequence of the continued strike of the dock laborers here, a large spinning mill shut down today, throwing 4000 men out of work. The mills have given notice that they will be forced to close down. Thousands of men will then be without work.

The police are becoming disaffected of the extra work entailed by the strike and are demanding additional pay.

**AMERICAN TRAVELER ROBBED OF \$100,000**

NEW YORK, July 25.—A dispatch from Geneva, reports that an American of the name of Day, described as a wealthy Chicago financier, has been robbed of a pocketbook containing \$100,000, chiefly in notes, while traveling on an express train from Munich to Lausanne.

Removes Office to 11th and Broadway

The Russell City Company, which for some time past has been doing business at 530 Thirteenth street, have recently moved into larger and more commodious quarters at 1015½ Broadway, between the Chamber and Chase buildings, and are now occupying their new offices.

In line with the progressive policy of the firm, they have equipped their new home in an up-to-date style with a view to their own comfort and convenience, and its adaptability to the needs of a large and growing business for an active clientele.

With an augmented force of able and conscientious salesmen, the contracting and negotiating sales in the new suburban town, Russell City, which has been on the market about six months, the firm is in every way entirely able to handle an attractive volume of business with energy and dispatch.

In keeping with other ideas that are new, the company is making a special feature of Sunday excursions to their new city, trains leaving First and Broadway every Sunday afternoon at 2:15 p. m. It is very desirable that the public avail themselves of this opportunity, and to that end no charge is exacted for the prime object being to acquaint the people of Oakland with the fact that at Russell City there is unlimited opportunity for the homeowner and investor, and it is the pleasure of the promoters that those interested become their guests upon these occasions.

Once there you are impressed with the phenomenal growth of this little hamlet and its evolution from a grove of trees to what promises to be a busy and happy suburban town, filled with happy homes and commercial enterprises. Additional sections adjoining the original purchase have been acquired by the company and it is no idle dream to foresee in the very near future a remarkable development along lines that will mean fortunes to those wise enough to invest now.

A local train service will shortly be inaugurated and other improvements of a like nature are contemplated. In fact these wide-awake gentlemen are stopping at nothing that money can buy to improve and develop this suburban section. Associated with Mr. E. Brooks Randall, who has been manager of the enterprise since its inception, are Messrs. E. E. Towbridge and E. M. Wright, and the interesting of new capital there is an added impetus that is bound to make Russell City the choicest investment proposition of all of Oakland's suburban towns.

## HOPE MAYNE TO WED TARPEY

Bridgroom - Elect Announces Winning of Heart of Fair Soubrette.

The uncertainty which has attended the prospective marriage of Miss Hope Mayne, the soubrette of the Idora Park Opera Company, to E. F. Tarpey, of Alameda, has, at length, been removed by the admission of the latter that the winsome actress and vocalist has consented to become his bride. Pressed further by a representative of THE TRIBUNE, Mr. Tarpey declared the marriage would take place soon after Miss Mayne retired from the stage and, he further admitted, the farewell to the fascinating world behind the footlights would take place some time next month.

Miss Mayne came from Australia to this country about a year ago. She had been a singer beyond the seas. Her first professional engagement took place in the Park Street Theater, Alameda. It was there the songstress first attracted the attention of Tarpey. Her presence was an attraction which lured him nightly to the show.

Later, Miss Mayne became connected with the opera company at Idora Park and immediately became a popular favorite. Tarpey found time to attend the performances and, the more the young lady received the plaudits of appreciative auditors, the more she rose in the affection of the young gentleman from the Encinal City.

**FRIENDS LOYAL.**

Still later Miss Mayne suffered from an ailment in the ear, but her admirer was all kindness and attention. His auto, under his own guidance, bore her to the park before and to her home after the performance.

At length Miss Mayne gave notice of her retirement from the company. She assigned no reason for this determination, however, but managers and associates felt that her abandonment of congenial companions meant the assumption of the duties of a queen in the home of the devoted suitor, and Mr. Tarpey's admission of the fact shows that Miss Mayne's friends and managers have a very good knowledge of human nature.

Children of the vacation school will enjoy an afternoon tomorrow at the Novelty theater, this through the courtesy of Guy Smith, Mrs. D. Smith, vice-president of the Oakland club, planned this benefit for the children, and has spared neither effort nor expense to provide a special program. Mrs. Smith will be assisted tomorrow afternoon by Mrs. C. S. Chambrlain, chairman of the vacation school, and several other members of the Oakland club.

## HARDWARE FIRM SUFFERS HEAVY DAMAGE BY FIRE

Flames Originate in Basement—Loss Estimated at \$50,000—Two Firemen Slightly Injured—Other Losers.

Fire of uncertain origin broke out in the basement of the hardware and carriage supply store of F. H. Brittain & Co., at 908 Broadway, about 10:30 o'clock last night, and damaged thousands of dollars worth of property before the flames could be extinguished.

The basement where the fire originated was filled with inflammable articles, including oil, paints, powder, ammunition and electric batteries. These quickly ignited and the blaze soon extended to the first floor, where the major portion of the company's stock was stored.

For a time it seemed as though the entire four-story building were doomed, but strenuous efforts of the firemen brought the flames under control, and no serious damage was done to the upper stories of the building.

It is estimated that the loss suffered by the hardware company will amount to \$50,000.

**OTHERS SUFFER.**

The entire stock of F. H. Brittain & Co. was ruined. The barber shop of George Peck and the saloon of P. Bemis, which adjoin the hardware store on either side, were badly damaged by water.

The building is the property of the Blake-Moffitt estate, and is insured.

When firemen reached the scene smoke was pouring in thick volumes from the sidewalk doors, and it was almost impossible for the men to get into the basement. Something like a panic was created in the large crowd congregated in front of the building when it became known that the basement contained powder and other explosives. Heroic efforts of the department prevented a serious explosion.

Several firemen who were overcome by smoke and heat were carried to places of safety by comrades.

Something like a panic was created in the large crowd congregated in front of the building when it became known that the basement contained powder and other explosives. Heroic efforts of the department prevented a serious explosion.

**DISCOVERED.**

The fire was first discovered by George Laasen, who runs a cigar stand at 904 Broadway, adjoining the scene of the conflagration. He saw smoke emerging from the basement of the building and a moment later the alarm was given. A few minutes later Charles Peterson, a salesman of the firm, came up and gave a second alarm. He dashed into the basement, but was forced back by the smoke after being nearly suffocated in his attempt to put out the flames unaided until the arrival of the engines.

In the basement was stored much valuable stock, among which were hardware and paints in addition to the other inflammable wares. The underground store warehouse extends under two buildings and for a time it was feared that the fire would extend the entire block before the firemen would be able to get at the flames.

**TRIBUNE ENDANGERED.**

The new home of THE TRIBUNE was in danger, too, the good work of the department confined the blaze to the building where it started.

The offices of Clinton J. Dodge, F. W. Fry, D. W. LaFortune, attorneys, were damaged by smoke and water, but the loss will be small.

The origin of the blaze is unknown, but it is believed that it started from poor electrical wiring.

Several firemen not brought under control until after two hours' work, and it was past 8 o'clock this morning before engine No. 2 left the burned building.

Deputy Sheriff Moffatt had a narrow escape from very serious injury when a glass transom fell from the door of the Tribune building and struck him on the head.

**FIREMEN INJURED.**

Three firemen were treated at the Receiving Hospital after the fire for the cuts sustained by broken glass. Charles Bullock of the Central post office was more severely than the other firemen. Bul-
